

Setting up Microsoft Firewall for Running Ansys

These are the exceptions needed if Microsoft Firewall is used.

Exceptions for a 64 bit client machine if firewall is enabled:

C:\Program files\ansys inc\V1110\common files\TCL\bin\winx64\wish.exe

C:\Program files\ansys inc\V1110\AISOL\CommonFiles\winx66\ANSYSWBU.exe

Exceptions for a 32 bit client machine if firewall is enabled;

C:\Program Files\ANSYS Inc\v1110\CommonFiles\tcl\bin\intel\wish.exe

C:\Program Files\ANSYS Inc\v1110\AISOL\CommonFiles\intel\ANSYSWBU.exe

Exceptions for a 64 bit server machine if firewall is enabled:

c:\Program files\ansys inc\shared files\licensing\winx64\lmgrd.exe

c:\Program files\ansys inc\shared files\licensing\winx64\ansyslmd.exe

Exceptions for a 32 bit server machine if firewall is enabled:

c:\Program files\ansys inc\shared files\licensing\intel\lmgrd.exe

c:\Program files\ansys inc\shared files\licensing\intel\ansyslmd.exe
